Statement of Policy on Reporting Crime and Emergencies on Campus

High Plains Technology Center strives to maintain a secure and safe environment for its students, employees, and the public. High Plains Technology Center encourages all persons to report any criminal or suspicious activity to an Assistant Superintendent who will take appropriate action after analyzing and investigating the seriousness of the incident. If a crime should occur on campus, a victim or witness should report it immediately to the Assistant Superintendent's office located in the central office area.

The Assistant Superintendent will report this crime to the appropriate local authorities. The law enforcement agencies will then gather information and make an official report.

High Plains Technology Center provides **timely warning** to the campus community of any occurrences of crime that are reported and are considered to represent a threat to students and/or employees. Timely warnings may come in the form of a call from the school's automated call system, an announcement on the intercom, or a personal visit to the employees' offices and to the classrooms.

The Assistant Superintendent will maintain a daily log of crimes reported to the police containing the nature, date, time, and general location of each crime and the disposition of the complaint, if known. This log will be available to the public upon request unless the release of information would jeopardize an on-going criminal investigation or the safety of any individual.
