## GRAPHIC DESIGN

**G**raphic Design is geared toward both college bound students and career driven individuals. This program offers flexible scheduling allowing you to continue pursuit of educational goals while participating in school activities and at the same time maintaining family and career commitments. Graphic Design offers training for many business and industry certifications through its career paths.

**L**eadership development, networking and community service are also important aspects of the Graphic Design program. The program offers an active chapter of Business Professionals of America and has had many state and national contest winners over the past several years.
